

## PROFILE: ABOUT ME

Talented & mythological Health, Safety, and Environment (HSE) Manager with over 17+ year of experience in developing and implementing safety protocols across various industries. I have strong track record of reducing workplace incidents and fostering a culture of safety. Excellent at collaboration with cross-functional teams and conducting comprehensive risk assessments. Leadership and training abilities enable to effectively communicate safety standards and engage staff at all levels.

## CARRER HIGHLIGHT

- I would like to join an organization where I can use my ability to the maximum effect and grow to my full potential. Being a professional I feel convinced that I should achieve a level performance which is nothing short of perfection and that your organization would provide the scope of a growth and development. My work reflects my deep conviction to quality and through satisfaction of my spurious.
- Dynamic, self-determined, enthusiastic professional and a Graduate mechanical Engineer with 17+ years of extensive experience coupled with skills in EHS & Project Management industry across India.
- Develop and implement health, safety, and environmental (HSE) management systems, policies, and procedures to ensure a safe work environment.
- Conduct and coordinate risk assessments, workplace inspections, and safety audits to identify potential hazards and non-compliance issues.
- Monitor and forecast HSE trends and changes in legislation, and implement proactive strategies to ensure continuous improvement.
- Manage HSE budgets and costs associated with safety equipment, training, and corrective measures.
- Liaise with regulatory bodies, local authorities, insurance inspectors, and other stakeholders regarding HSE matters.
